

Youth Enrichment

COLLABORATION WITH OUR VOICE - THE MAGAZINE

Our Voice - The Magazine's young writers program seeks funding for a special collaboration with Flower City Arts Center for a unique project using the center's accessible studios and gallery spaces. Students will work alongside artist-teachers and Our Voice - The Magazine's professional media staff in a supportive community environment as they accomplish their creative goals.

Stage 1: Funding an introductory field trip to the Flower City Arts Center: twenty students from OurVoice program will create fine art posters of inspirational quotes by Frederick Douglass using traditional printing techniques on historic presses. Students will additionally learn book binding techniques to create their own writers journals and learn more about the printing and publishing process from its historic roots to contemporary times.

Project Launch Funding Needed: \$400 for 20 students

Step 2: Our Voice and Flower City Staff will implement a six week youth program including enhancing the students photography skills, learning digital photography editing techniques and also using professional design programs.
